

TERM 3 WEEK 6

NEWSLETTER

PRINCIPAL AND DEPUTY PRINCIPAL REPORT

Our purpose at Lucindale Area School is to provide opportunity, choice and hope to all students. Our role is an important one as we work in partnership with our families. Our school is a place for opportunity as we want every student to excel and we strive to give them a range of experiences that will develop and stretch them as individuals. This year we introduced different programs to enhance student's experiences of school life. These included the Australian Maths Competition, Young Judges Day, Science Week, Get Home Safe Foundation, Life Ed, ThinkUKnow, Primary Gymnastics, Royal Adelaide Show, Primary School Concert and many more. Education gives all students choice. Choice about the kind of person they want to become and what they want to do with their life. Our staff, with families, work hard to foster self-worth and how each student can be a person for others. How we treat each other, show respect and include others is at the cornerstone of what we do at this school. In a changing world, and especially since the pandemic, hope for a positive future is critical for our students. Our exceptional staff facilitate that hope for our students.

LAS NEWSLETTER
ISSUE 15
29th September

Their total belief in the students that they can achieve and fulfill their potential is what drives our staff. Believing in each student is the hallmark of what we do everyday and one that our students deserve. Public Education has developed with a new strategy for our schools in South Australia (SA). Children and students learning and thriving is the purpose for public education in South Australia.

Areas of impact that we will prioritise and resource are:

1. Wellbeing

Belonging and safety, resilience and persistence and cognitive engagement.

2. Equity and excellence

Knowledge, skills, competencies and capabilities, Aboriginal learners, inclusion and breaking the link between background and excellence.

3. Effective learners

Curiosity, creativity, meaning making, strategic awareness and metacognition and self-regulation.

4. Learner agency

Voice to agency, partners in learning and discernment and judgement.

We will use success measures to guide our understanding of how the education system is working and how to adapt the Department's strategy.

Our Year 12 students now have the finish line in sight as they move towards completing courses, finalising in-school assessments and investigations or beginning preparation for examinations in November. Regardless of which pathway students have chosen, this term is the culmination of many years of hard work and application. As students progress towards their graduation, we hope that each of them can reflect on this journey with a sense of accomplishment and satisfaction.

Louis de Jager and Joey Kemplay-Hill

- **Pupil free day**

STAFFING NEWS

I am writing to inform the community that Tim Durik has accepted the position of Business Manager at Naracoorte Primary School and will resign from his position as Business Manager effective Friday, 6 October 2023. This is an exciting opportunity for Tim, and he is to be congratulated on his appointment.

Tim began at Lucindale Area School in July 2020 and has a background in IT and supported staff with ways to improve their IT Skills. He assisted Leadership with the new Senior Building and the Hybrid Room. Tim's passion for data processing was evident by helping introduce the new digital phone system, online parent interview portal, the introduction of School Stream, Edsmart, QKR, a student laptop program and the rebuild of our school website in Wordpress.

I have personally appreciated and valued the support Tim has given to me as Acting Principal and in how he has coordinated the business of the school. I truly wish him every success in the future at Naracoorte Primary School.

We have appointed a Wellbeing Coordinator - Rosie Copeland.

Here is Rosie's story:

I have been living in the Southeast for the past 20 years after coming to Mount Gambier for a one-year contract at the high school. I remained at Mount Gambier High School for the next 9 years and enjoyed my many roles there - as a Maths and HASS teacher, Wellbeing Coordinator and HASS Co-ordinator. I have a lot of good memories and am proud of some of the innovative changes that I was a part of - including the introduction of Round Table assessment for year 10 student writing, and delivering a course on Human Rights and writing and teaching many alternative classes for students.

After leaving MGHS, I went to the Regional Education Office and spent my next 5 years as a Behavior Consultant working with many schools around the Southeast. I moved to Adelaide Central Office to be a part of the Inclusive Teaching and Learning Directorate as a Senior Advisor - Personalised Learning., I remained living in the Southeast as this project involved a travelling component - I was able to visit with many schools throughout the state including the APY lands and of course throughout the Southeast. I am looking forward to joining the team at Lucindale.

Louis de Jager and Joey Kemplay-Hill

R/1 /2 GYMNASTICS

In Week 8 the R/1/2 students continued to enjoy their Gymnastics session in Millicent. The session was focused on stretching and how different activities will use different muscles.

Thank you to Sharon, Ronnie, Linda, Kylie, Nikki and Joel for attending in Week 8 and we appreciate the effort parents have made to come along travelling on the bus.

Our final session will be on Thursday, Week 10.

SMASH VISITS FROM THE STRIKERS

Adelaide Strikers Visit

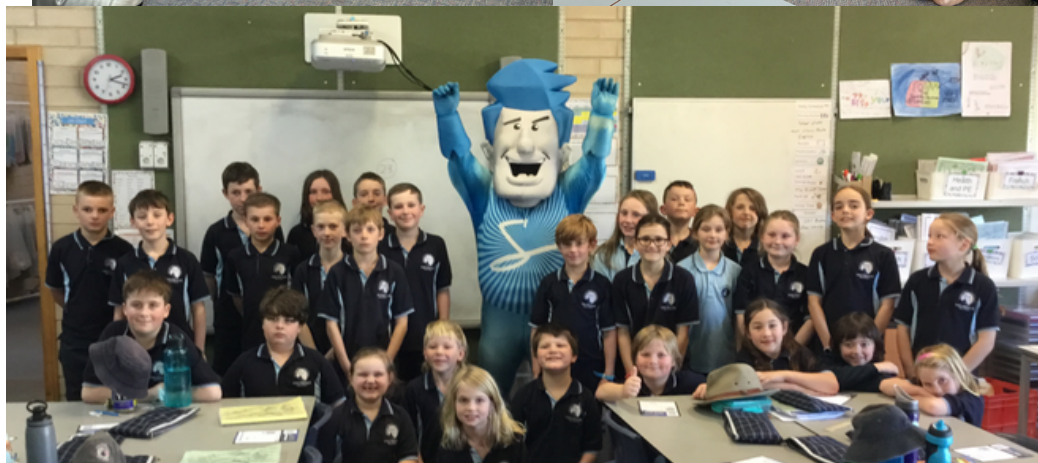

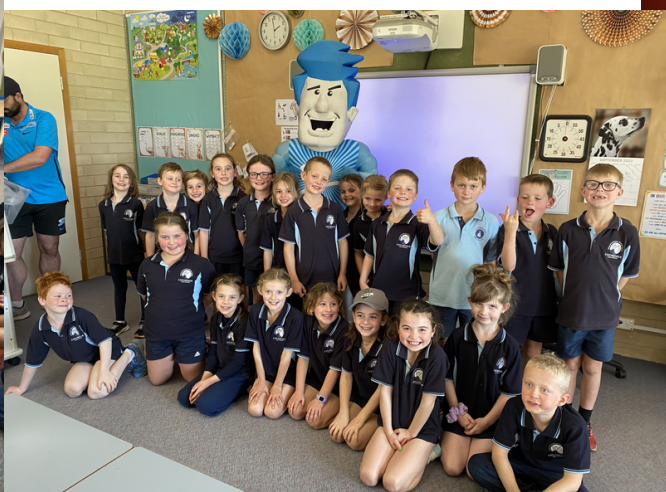

Adelaide Strikers mascot Smash visited the school and spent time with the Primary classes talking about local cricket and Twenty20 cricket. They also helped students with throwing and catching techniques.

Albie – We did throwing a cricket ball. We had to throw it in the air do two claps and then catch it again.

Jaxson – I liked catching the cricket ball with Smash.

Elayna – We threw balls up into the air, did claps and caught the ball again.

Ava – We threw cricket balls to a partner.

2023 HOT SHOTS SCHOOL CARNIVAL

2023 Hot Shots School Carnival

On September the 14th, the Year 3/4 and Year 5/6 classes participated in the 2023 Hot Shots Tennis Carnival. The two classes travelled to the Naracoorte Tennis Courts and spent the day representing our school and practicing their tennis skills. For the Year 3 students, this was their first-time representing LAS at Hot Shots Tennis.

On the day of the carnival, 40 students attended from our school. They participated in tennis matches with modified rules and played several rounds throughout the day. Students had a great time playing against students from other local schools including Naracoorte Primary School, Naracoorte South Primary School, and Sunrise Christian School. There was a strong display of good sportsmanship between all participants. Most teams competed in friendly matches, however one Year 6 team competed in Pathways Division matches. They gave a great effort and showed considerable skill which led them to win every round. Well done to all students!

The day would not have been possible without the help of all involved. LAS would like to thank our staff and volunteers: Adrian for volunteering to lead our training sessions and assisting during the carnival, Kirsty and Sarah for volunteering to be parent helpers, Jess for helping during our training sessions, Ms S for leading the trip to the carnival, and Mr Obrien, Tim D and Claire S for helping as supervising staff members.

When we went to Hot Shots, I loved the music and playing with other schools and classmates. Amelia

Hot Shots was really fun because we got to know new people and it is a really fun game. Jeremy

It was fun that we got to meet new people, have fun together and be nice. Sophie

We played several matches, it was fun. Matilda

Hot Shots was really fun, especially because I got to compete and test my skills. Rebecca

I really enjoyed winning this year. Seth

At Hot Shots, I loved playing with my friends. Vander

Hot Shots was a very amusing event that was very fun. I do recommend it for your child. Aden

RUOK?

On the 12th of September, staff and students wore 'a touch of yellow' to celebrate RUOK Day 2023. The 2023 theme was "I'm here to hear", and students worked with their homegroup teachers to discuss different ways to ask "RUOK?" and check in with their friends and peers. It is important for us all to take this message with us as everyday brings with it another opportunity for us to look after those around us. In the hustle and bustle of the everyday it is important that we work to meaningfully connect with the people around us and start a conversation with those who may be struggling. RUOK day highlights that we do not need to be experts to reach out, just a good friend and listener. RUOK encourages us to use these four steps to have a conversation that could change a life:

1. Ask RUOK?
 2. Listen
 3. Encourage Action
 4. Check in.
- (ruok.org.au)

PRIMARY CONCERT

21st September 2023

Primary classes performed in Week 9 at the Lucindale War Memorial Hall.

The Year 5/6 SRC representatives Harry and Bethany welcomed families and community members. The spoke about our theme of 'Community' and how despite our local area seeing some tough times over recent years we are known as a community who comes together when it counts - the concert is a tribute to our community.

Thank you to all the families who assisted with student costumes and props to make the night one to remember.

Congratulations to the students who put in their best efforts to make the night a success.

1st Act Mr O'Brien's Year 5/6 class - Helping Community

2nd Act Miss Smith's Year 3/4 class - Community Tribes

3rd Act Miss Ferguson's Year 1/2 class - Sporting Community

4th Act Mrs Jenke's R/1 class - Farming Community

Finally, all classes danced to the YMCA.

To conclude the night Bethany and Harry finished with some very important thank yous to JoJo, Miss S & the students who assisted with the backdrop banner, and Joel for transporting everything we needed and driving the bus to get us to rehearsals.

To the Year 9 & 10s – Emma, Paige, Hannah, Harms & Beth who welcomed families and assisted backstage and Levi who played the music for our acts.

Tegan Ferguson for taking photos & video footage throughout the concert.

Neil Ferguson for setting up the sound system.

It was wonderful to honour our school motto 'School & Community Working Together'.

YR. 8 AND R/1 BUDDIES

Mrs Parkins' Year 8 class are visiting Mrs Jenke's R/1 class on Fridays for a short literacy session before Recess.

The students have been taking it in turns to practice their reading skills using expression and active listening skills when being read to.

Having secondary students work with primary students helps to build relationships throughout the school to encourage students to interact in a positive way in the school yard or to seek out assistance should they need it.

School Library News

The Scholastic Book Fair is coming to the Lucindale School Community Library from Monday 6th November to Saturday 11th November 2023. Please see flyer for details.

Digital lessons for over 50's will continue in Term 4 in the Library. They will run each Tuesday from 10am to 11am, commencing on Tuesday 17th October. Lessons are self-paced and cover any topic you would like assistance with. The sessions are run by Becky from the Naracoorte Library. Come along, have a laugh and a chat, whilst expanding your digital technology skills.

The Library will be closed for the first week of the school holidays, reopening for normal hours for the second week on Monday 9th October.

It looks like the weather for the school holidays is going to be fantastic. Enjoy. We look forward to seeing you all again next Term.

Kerena

LUCINDALE SCHOOL COMMUNITY LIBRARY SCHOOL HOLIDAY HOURS

Saturday 30th September to Sunday 8th October 2023

Week 2

Office closed

**Our office will reopen on
the first day of Term 4**

**Monday 16th October
2023 at 8am.**

The Scholastic Book Fair is coming to Lucindale School Community Library.

This is a great opportunity to add to your child's at home library, or purchase Christmas presents.

The Scholastic Book Fair will be held from Monday 6th November to Saturday 11th November 2023.

This is a whole school and community event.

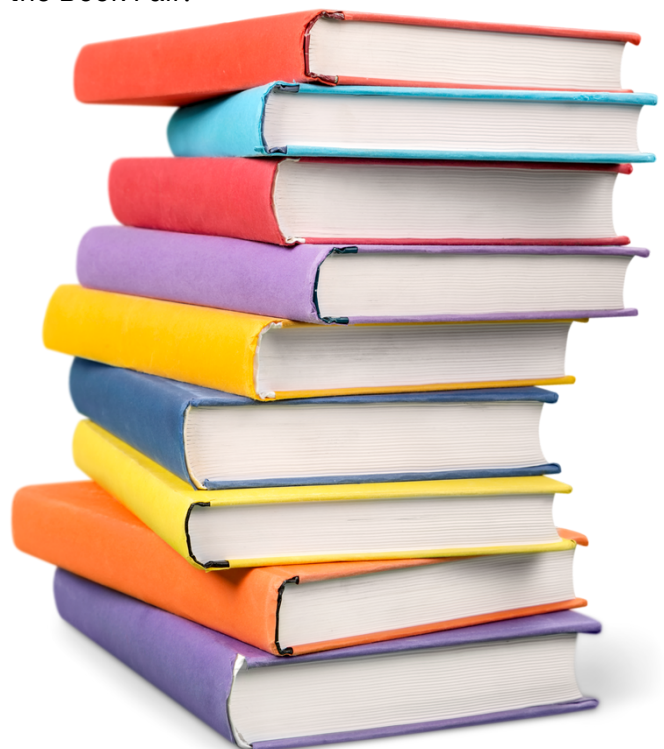

Scholastic send the Library a large selection of books and stationery items to sell. There will be multiple copies of each book available for immediate purchase. Additional orders will be available on out of stock items and filled within approximately 2 weeks of the Book Fair ending.

The students with their class teachers, will have the opportunity to browse the selection of books in the week prior to the Book Fair commencing. Your child may bring home a Scholastic Book Fair "Wish List". This is not a commitment to purchase; it is simply a list of items your child wishes they had.

If you wish to purchase, you are welcome to visit the Library during the week of the Book Fair to make your purchase, or alternatively follow the directions on the wish list to purchase online. There will be no purchases prior to the Book Fair. Sorry, no holds available.

The Book Fair opens at 9am each morning, during the week of the Book Fair.

We look forward to welcoming you to our Book Fair.

2023 PREMIERS READING STEM CHALLENGE

The Year 3/4 class also participated in the Premiers Reading STEM Challenge this year. A book related to Space was read to the class. Students learnt about special features of the different planets within our Solar System. Then students designed and invented a future space travel machine for exploring the outer planets. Their designs were sent through to Adelaide as part of a competition. All students who participated earned a certificate which was announced at the last Primary Assembly.

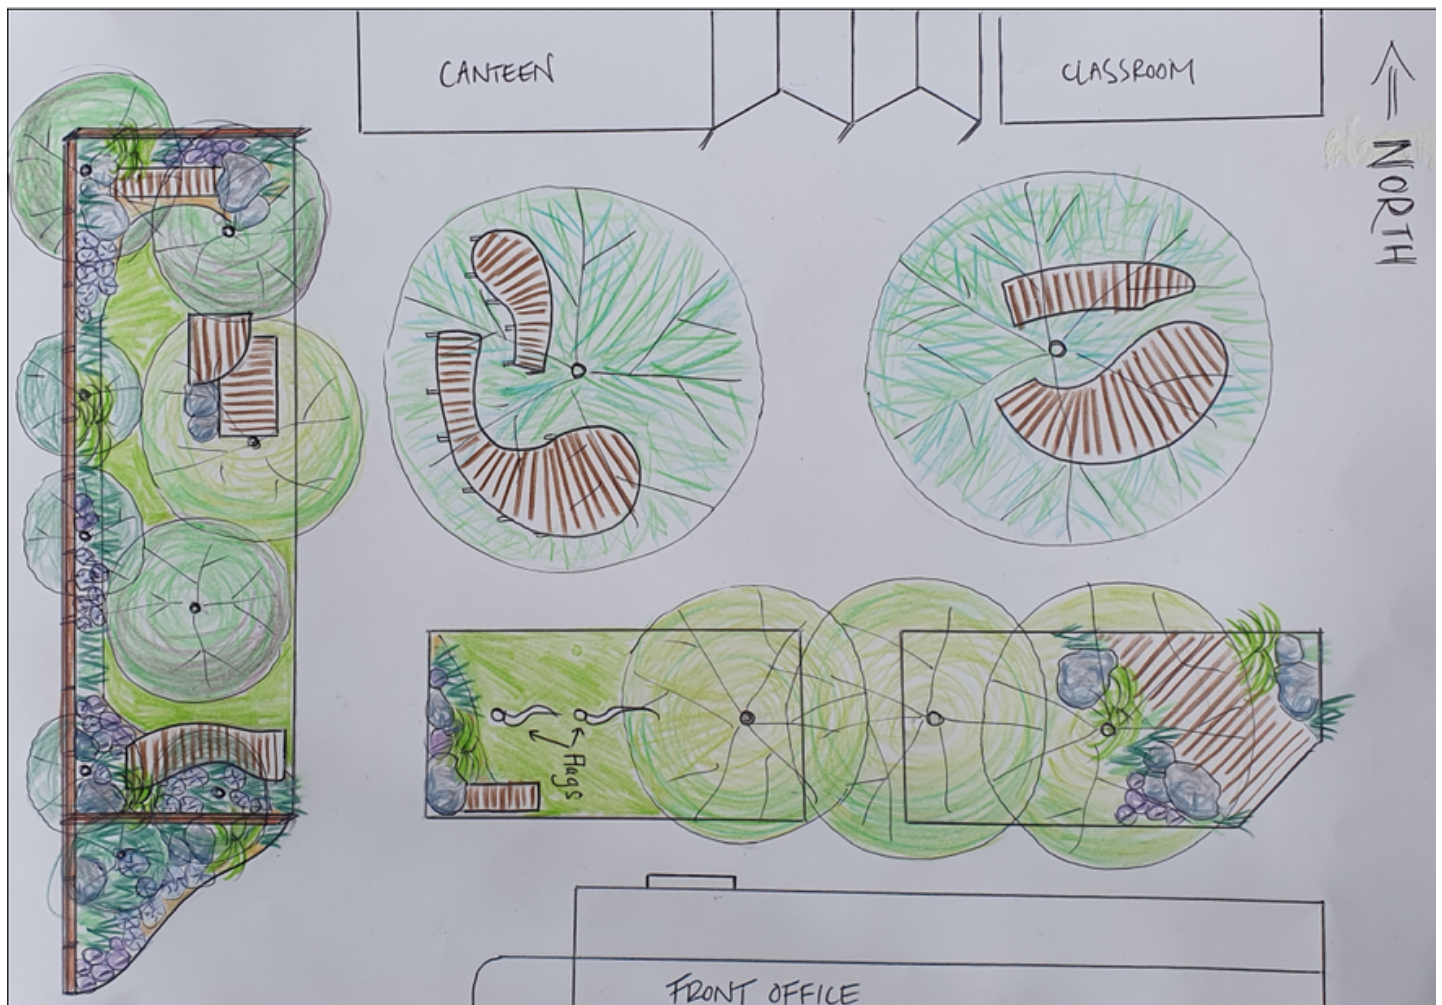

FRONT OF SCHOOL

Earlier in the year a small working party came together to make some plans for the refurbishment of the front of the school following the removal of the classroom block. After careful planning, a proposal for the area has been presented to the Governing Council, staff, students and the school community for consultation and feedback. A copy of the plan is shown below which will include areas of shade, outside learning areas and garden beds to soften the front of the school.

The re-development will continue to take shape over the holidays with a walking path across the grass area planned with the help of Burdett Concreting. The planting of some trees in the paving area and grassed garden beds will hopefully take place prior to summer and the planned fence across the front of the school and car park area is also on track for installation in the Christmas break. Additional parts of the plan including plantings in the garden beds and seating around the trees is ear-marked for 2024.

The working party are keen for more help with this project including at working bees and in the planning stages especially with the garden beds. It would be great to see as many families as possible become involved in transforming the front of our school.

2023 BEBRAS

CHALLENGE – ROUND 2

Bebras is an international initiative aiming to promote Computer Science among school students at all ages. The Bebras challenge is open twice a year to Australian Students in Years 3-12, and engages students' computational thinking and problem-solving skills in a fun, interactive environment. The challenge is free and helps schools introduce computational thinking to their students.

The Bebras international community has grown to 60 countries with over 2.9 million students participating worldwide! Bebras Australia began in 2014 and is now administered through the CSIRO. Lucindale Primary students have participated in this challenge for the second year. This year we had 29 students participate in the CSIRO Bebras Challenge and this year we achieved 15 awards. Well done to all of the students who participated and had a go. Congratulations to the following students who achieved awards:

A Special Mention needs to go to Charles who received the Highest in School Award.

HIGH DISTINCTION – Charles B

DISTINCTION – George L, Matilda

CREDIT – Ruby K, Rylan M, Harrison

MERIT – William A, Liam M, Austin H, Marle N, Naithan T, Lucy T, Harry R, Taylor E and Tom H.

Student comments:

Charles - “ I liked the challenges and all of the codebreaking. The coordinates are fun going through mazes. There were ones that had a diagram and they said that two gates were open and what were the possibilities of the water going through the pipes.”

Skyla - “I liked how there were complicated and easy challenges. I also liked that there is also more than one option to choose from. It is easier to get rid of some options when working it out. I also liked that it had more than one subject question in the challenges.

Jack - “I liked all of the hard and easy codes that you have to solve and then you had to draw and work out where you had to go. Most of the problems were Maths and there were one or two English ones that you had to read more carefully.”

**Pauline Rivett
Primary Year 3-6 Technologies
Teacher**

CONGRATULATIONS

COMMISSIONERS DIGITAL CHALLENGE 2023

The Commissioners Digital Challenge has three different sections for students to participate;

Space To Dream – Design Thinking (navy certificate)

Learn to Speak Robot – Digital Thinking. (yellow certificate)

Zoom Out – Systems Thinking (teal certificate)

This year the Year 5/6 and Year 3/4 classes both participated in the ‘Space To Dream’ challenges. Students went through the Design Process to invent a toy for a child to take to Mars. The students watched a video of an astronaut talk about her experiences in space travel and introduced features that the students will need to consider throughout the process. Students created 6 different ideas, selected two of their ideas and developed further, shared with their peers for feedback on how they could improve on their design concepts and finally produced a detailed drawing of their toy concept using 3D Makers Empire App and illustration. All participating students received a Certificate of Participation for their efforts.

The Year 3/4 class participated in the other two challenges as well. The ‘Learn to Speak Robot’ involved doing coding exercises. The students worked on computational coding using arrows, Scratch programming in Code.org lessons and LEGO Essential Scenarios Block Coding throughout the year. Within the ‘Zoom Out’ Challenge, the whole class participated together on a series of micro-activities based on systems all around us. Students looked at the whole system from a broad perspective, rather than a jumble of computer parts. It was an approach to thinking that can help students predict future outcomes based upon understanding of how these parts of a system contribute to the whole. Systems are everywhere around you – and behave in different ways. There are different body systems, space systems and even literacy systems eg Words are systems of letters, sentences are systems of words, books are systems of sentences and libraries are systems of books. Students earned a participation certificate for their learning throughout the year.

Pauline Rivett
Primary Year 3-6 Technologies
Teacher

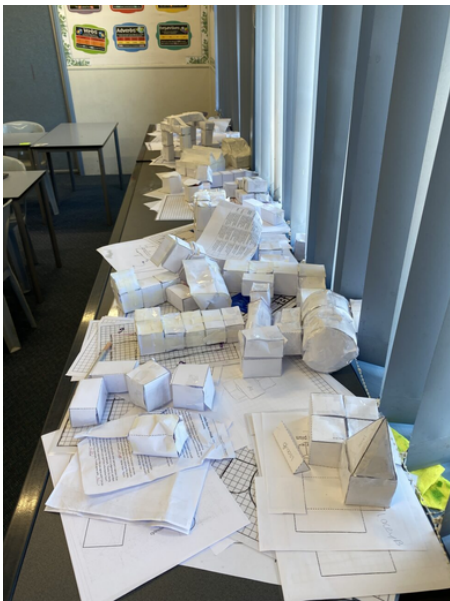

MEASUREMENT WITH THE YEAR 7'S

This Term Year 7 have been working on a unit of measurement. As part of the unit students completed a measurement investigation. Students were asked to do some research and find a building that inspires them, annotate the image and describe the 3D shape composites in their chosen building.

Students then designed their own building. Students used nets to create various 3D shapes. They used a 1cm grid to outline a floorplan and created a 3D model to view, drawing various elevations of their model. Students used their model to construct an isometric drawing,

Students calculated volume and surface areas of the 3D objects that make up their building.

LITTLE ATHLETICS

Want your children the chance of trying variety of sports and meeting new people? Then come and give Little Athletics ago.

Every Friday at 4.15pm during Term 4 and Term 1 at the Naracoorte High School. Ages 3 – 17. Starting 20th October.

We offer 2 free come and try meets as well. And not to mention if you haven't used it on another sport, take advantage of the School Sports Voucher option where you can save \$100 off your memberships.

Follow us on FB for up to date information. Or contact President Nikki Smart 0427 605 632.

**WE ARE
PASSIONATE**

5 REASONS why you should register for Little Athletics!

-  Meet new people and spend time with your family and friends.
-  Participate in a variety of different events at your weekly meets.
-  Improve your physical fitness and mental wellbeing.
-  Have the opportunity to participate at local CLUB MEETS and STATE COMPETITIONS.
-  Achieve your personal best and continue to improve your skills.

Join your local SA Ambulance Service team in Kingston, Robe or Lucindale.

A strong sense of community is what drives SA Ambulance Service (SAAS) Regional Team Leader Taylor Martin.

Taylor grew up in Kingston SE and has returned to the region recently to take on the leadership role looking after the volunteer teams in Kingston, Robe and Lucindale.

Training volunteers and watching them take on new skills is rewarding to the Robe local.

"I am grateful to have the opportunity to give back to the community in this capacity," Taylor said.

"I feel the volunteers are responsible for keeping the ambulance service going and all of the credit should go to them," she said.

Kingston, Robe and Lucindale are all looking for volunteers in SAAS's recruitment drive Answer the Call.

Taylor said new volunteers would be most welcome, and they would be joining teams which were made up of people from diverse backgrounds.

"We have farmers, teachers, nurses, scientists and even a psychologist within my teams," she said.

"It is great to be surrounded by selfless, kind and a community driven group of people."

Taylor can also see the fun in working with a community she grew up in.

"Several volunteers have known me since I was a child, for example, Pauline Parsons who taught me in primary school and Vicki Natt who was the local postie, are both volunteers at Kingston."

Volunteers join the service from all walks of life, and no prior medical knowledge is required.

SAAS provides training, uniform and reimburses out of pocket costs such as travel and childcare. A fully qualified volunteer Ambulance Officer is awarded a Certificate IV in Healthcare, and volunteers and their families also receive free Ambulance Cover whilst volunteering for their communities with SAAS.

If you are interested in becoming a volunteer, SAAS is hosting a free online information session on Wednesday 19 July at 7pm. Hear from volunteers at SAAS about why they've joined and what it's like. Head to [Eventbrite \[https://www.eventbrite.com.au/e/free-ambulance-volunteer-information-session-tickets-663358371747\]](https://www.eventbrite.com.au/e/free-ambulance-volunteer-information-session-tickets-663358371747) to secure your place.

BIRDS OF THE NARACOORTE NORTH PARKLANDS

Naracoorte North Nature Park | North Park Lands | October 8th | FREE | 5 - 7pm

Interested in learning more about our local birds?

Join Hugh Possingham, the Nature Festival's Bird Lover in Residence, as he explores the birds that call the south east of South Australia home.

The Naracoorte North Park Lands (Nature Park) is a large area of beautiful grassy woodland, with stringybark and other native trees, that is home to a large number of native bird and other animals species. With exceptional luck this may even include the nationally endangered Southeastern Red-tailed Black-Cockatoo.

This bird watch and walk is suitable for beginners and bird enthusiasts alike.

While we will be following paths, be prepared to walk on some patches of uneven ground and around tripping hazards. Please wear weather appropriate clothing including a hat, suitable walking shoes and bring a water bottle. Binoculars are encouraged but not essential. This event is suitable for children 10+.

Meet at the Naracoorte Swimming Lake car park at 5 pm.

This event is FREE. Bookings essential.

<https://www.naturefestival.org.au/event/birds-of-the-naracoorte-north-parklands-with-our-bird-lover-in-residence>

GOOD LIFE PROGRAM

This FREE 8-week program will give you the knowledge and opportunity to practice skills to help you live well into retirement and your older years.

This program is open to anyone over the age of 50 who lives in the Naracoorte Lucindale Council area.

There will be a number of experienced speakers and presenters who will equip you with tools to improve your mental and physical health.

The next round will commence in October (dates to be confirmed) but if you are interested in being involved, please get in touch with our Naracoorte clinic now on 8762 1515 or naracoorte@goodcountryphysio.com.au to register your interest.

GROW YOUR OWN FOOD

Hutchison's Nursery | 72 Stewarts Terrace | October 13th | 10am

SCHOOL HOLIDAY PROGRAM - GROW YOUR OWN FOOD Have you every wanted to start your own veggie garden with the kids but not sure how?

Our Grow Your Own Food workshop is perfect for families and children to learn all about growing veggies at home! And you'll get to kick start your garden with your own mini veggie garden to take home.

This workshop is the perfect school holiday program. Friday 13 October 2023

Time: 10-11am

Location: [Hutchisons Nursery](http://HutchisonsNursery.com.au), 72 Stewart Tce,

Naracoorte

Free

Bookings required - email wellbeing@nlc.sa.gov.au with the number of children attending and their age. Parent supervision is required.

SUNDAY 29 OCTOBER

ACRYLIC PAINT POURING WITH RESIN CLEAR COAT RESIN AND GEMS with Mel Taylor from Pine-apple Creations - 1 - 2.30PM - \$120pp

Create a funky design on a 30 x 40cm canvas using a thinned out paint to create cells and a fun painting. You will be shown how to apply your resin clear coat and gems (included) once your painting is dry. You will need to pick up your art work the next day 9-10am All materials supplied.

RESIN ART WORKSHOP - 3.30-6pm - \$140pp

As you learn all about this fun medium, you'll be creating a design on a 30 cm approx wooden serving board plus your choice of mandala, shell or round coaster or wine glass coaster!

Resin art is a great medium to work with and offers many artistic and therapeutic benefits. Over two and a half hours, get familiar with this versatile art form and learn how to create some truly stunning creations. Glass of bubbles or soft drink, nibbles and all materials supplied.

This is a fun and easy class, open to anyone over the age of 18 (not recommended for pregnant women)

By the end of this art experience, you'll have a serving board that's a one of a kind ready to use for serving food or as an ornamental piece. It will be ready to be collected the following day once they have dried between 9-10am
